COMPONENT MOUNTING COLLARS

EXPAND DESIGN OPTIONS AND PROTECT SHAFTS

A full line of mounting shaft collars that feature a perfectly square integral mounting clamp and will not mar or damage expensive shafts are available from Stafford Manufacturing Corp. of Wilmington, Massachusetts.

Stafford Component Mounting Collars provide a flat mounting surface with multiple attachment options and are available with or without a flange. Perfectly square to assure smooth operation, these mounts can be easily repositioned and are suitable for use with a wide range of components including gears, lever arms, pulleys, and sprockets.

Offered in steel, stainless steel, and aluminum, Stafford Component Mounting Collars can be supplied with various mounting hole patterns. The Accu-Mount™ style has a centering hub and comes in one- and two-piece designs from 1/2" to 2" I.D. and the Accu-Flange™ mounting collar is available in 1/4" to 3" bores; with or without keyways.

Stafford Component Mounting Collars are priced depending upon size and quantity. Price quotations are available upon request.
