FOR IMMEDIATE RELEASE

SHAFT COLLARS & COUPLINGS FOR FOOD AND BEVERAGE APPLICATIONS

A wide range of standard and custom shaft collars, couplings, and mounting components for food and beverage processing, conveying, and packaging applications are available from Stafford Manufacturing Corp. of Wilmington, MA.

Stafford Shaft Collars, Couplings & Mounting Components are made from FDA- and USDA-approved materials to match user requirements for food and beverage process systems including conveyors, filling equipment, and ovens. Made from Nylon and Delrin® with stainless steel fasteners, 303 and 316 stainless steel, and high temperature alloys they come in a variety of configurations.

Available as one-, two-piece, and hinged shaft collars and flange mounts, Stafford Stainless Steel Collars, Couplings, Mounting Components and those made from high temperature alloys are offered in 1/4" to 14" I.D. sizes, depending upon material, and the Nylon and Delrin® collars come in 1" to 4" I.D. sizes. Special bores, keyways, and other treatments are offered.

Stafford Shaft Collars, Couplings & Mounting Components are priced according to material, size, and quantity. Price quotations are available on request.
