FOR IMMEDIATE RELEASE

MOUNTING SHAFT COLLARS ATTACH ITEMS TO A SHAFT, PIPE & TUBE

A full standard line of mounting components featuring various options for attaching something to a shaft, pipe, and tube has been introduced by Stafford Manufacturing Corp. of Wilmington, Massachusetts.

Stafford Mounting Components feature a variety of shaft collar designs and mounting options including face, flange, flat, and stackable as well as different fastening alternatives for securely mounting items to a shaft, pipe, and tube. Sizes range from 6 mm to 10" I.D., depending upon the configuration, they are available in steel, stainless steel, and aluminum, and special design modifications to customer specification.

Based upon one-piece, two-piece, and hinged shaft collars, Stafford Mounting Components include the Accu-Clamp™ feature for applications that require extreme squareness and flatness. For adjustable clamping without tools, Staff-Lok™ collars are offered or a Grip & Go™ Quick Release Handle which replaces a clamp screw to allow rapid repositioning can be added.

Stafford Mounting Components are priced according to product type and material. Most are in stock for immediate shipment.
