## FOR IMMEDIATE RELEASE

### QUICK-RELEASE CLAMP COLLARS

#### 3 DESIGNS ATTACH & ADJUST WITHOUT TOOLS

A line of quick-release clamp collars offered in three designs that provide clamping options by hand without tools for a wide range of applications have been introduced by Stafford Manufacturing Corp. of Wilmington, MA.

Stafford Quick-Release Clamp Collars come in three designs that provide easy attachment and fully adjustable clamping by hand without tools. Featuring an integral hinge with a conformal cam lever and a knurled screw, the Staff-Lok™ Shaft Collar has a mounting flat with a countersunk drilled and tapped hole and two mounting holes on the face. The Flip-Lok™ clamp collar has a cam lever for clamping and a knurled nut to create a preset.

The third design alternative is the Grip & Go™ Quick-Release handle which can convert any standard shaft collar into a rapidly adjustable locating device and comes in steel, stainless, and aluminum in two sizes. The Staff-Lok™ is made from steel in 0.5" to 2.5" I.D. sizes and the Flip-Lok™ is made from hard-coat black anodized aluminum with steel fasteners and comes in five sizes from 0.75" to 1.5" I.D.

Stafford Quick-Release Clamp Collars are priced according to version, size, special requirements, and quantity. Pricing is available upon request.
