FOR IMMEDIATE RELEASE

SHAFT COLLARS, COUPLINGS & COMPONENTS
FOR DESIGNING AND BUILDING PACKAGING EQUIPMENT

A full line of shaft collars, rigid couplings, mounts, and components that are suitable for building all types of packaging, bagging, and filling equipment is available from Stafford Manufacturing Corp. of Wilmington, MA.

Stafford Shaft Collars, Couplings & Components include over 4,000 standard parts for use a stops, spacers, and mounts for designing and building all types of packaging, bagging, and filling equipment. Featuring collars to fit a variety of shaft configurations, mounting collars, adjustable collars, and various types of rigid couplings, they often eliminate custom ordering.

If specially designed parts are required, Stafford Shaft Collars, Couplings & Components can be customized or parts can be custom manufactured to OEM specifications. Made from aluminum, 304 and 316 stainless, steel, alloys, and plastics in one- and two-piece clamp types and in set-screw styles, sizes range from 0.125" to 14" I.D., depending upon part and configuration.

Stafford Shaft Collars, Couplings & Components are priced according to type, material, size and quantity. Price quotes are available upon request.
