SHAFT COLLARS & COUPLINGS

FEATURES CUSTOM COLORS OR PLATED FINISHES

Clamp-type shaft collars, couplings, and mounting devices that can be finished in custom colors to exactly match commercial OEM and military MIL product specifications have been introduced by Stafford Manufacturing Corp. of Wilmington, Massachusetts.

Stafford Shaft Collars & Couplings that feature custom colors or finishes are offered in anodized aluminum, painted steel, chrome, and other platings. Available in a broad range of styles and sizes, they are ideally suited for matching commercial agricultural machinery and products and can include desert tan and olive green for military applications.

Providing a smooth bore to protect expensive shafts, tubing, and pipes, Stafford Shaft Collars & Couplings that feature custom colors or a plated finish are offered in sizes from 1/8" to 6" I.D. and various one- and two-piece styles. They can also incorporate threaded bores and a wide range of special face and O.D. treatments such as flats, holes, and knurls.

Stafford Shaft Collars & Couplings are priced according to design requirements and quantity. Price quotations are available upon request.
