FOR IMMEDIATE RELEASE

SHAFT COLLARS, COUPLINGS & COMPONENTS
FREQUENTLY ELIMINATE THE NEED FOR CUSTOM ORDERING

A full line of shaft collars, rigid couplings, and components for bagging, filling, labeling, and packaging machinery and conveyor systems have been introduced by Stafford Manufacturing Corp. of Wilmington, Massachusetts.

Stafford Shaft Collars, Couplings & Components are available off-the-shelf to fit a variety of shaft configurations and include adjustable collars, mounting collars, and various types of rigid couplings. Featuring over 4,000 standard products that often eliminate the need for custom ordering, they include stops, spacers, mounting devices, and related components.

Made from aluminum, steel, 304 and 316 stainless, alloys, and plastics in one- and two-piece clamp types and in set-screw styles, Stafford Shaft Collars, Couplings & Components range in size from 0.125" to 14" I.D., depending upon part configuration. Available with round, hex, and square bores and keyways, they are suitable for a wide variety of applications.

Stafford Shaft Collars, Couplings & Components are priced according to type, material, size and quantity. Price quotes are available upon request.
