FOR IMMEDIATE RELEASE

MARINE GRADE SHAFT COLLARS

COME IN STAINLESS STEEL, BRASS & PLASTICS

A broad line of 316 stainless steel and brass shaft collars, couplings, and mounting devices plus plastic shaft collars for use with underwater drones has been introduced by Stafford Manufacturing Corp. of Wilmington, MA.

Stafford Marine Grade Shaft Collars, Couplings & Mounts feature 316 stainless steel and brass construction or nylon and Delrin® with 316 SS fasteners for use with underwater drones and other subsea applications. Available in a wide range of configurations, these corrosion-resistant components can include round, square, hex, keyed, and threaded bores.

Available with special face and O.D. treatments, mounting holes, slots, and other modifications to customer requirements, Stafford Marine Grade Shaft Collars, Couplings & Mounts come in standard 0.25" to 10" I.D. sizes for the 316 stainless steel or brass and the nylon and Delrin® come in 1" to 4" sizes. They are offered in 1-piece, 2-piece, set-screw and flanged styles.

Stafford Marine Grade Shaft Collars, Couplings & Mounts are priced according to configuration and quantity. Pricing is available upon request.
