## FOR IMMEDIATE RELEASE

### FOOD-GRADE SHAFT COLLARS PROMOTE SANITATION AND SAFETY

A new line of food-grade blue Acetal shaft collars with stainless steel fasteners for use in the food and beverage industries has been introduced by Stafford Manufacturing Corp. of Wilmington, Massachusetts.

Stafford Food Grade Blue Acetal Shaft Collars meet FDA requirements for food contact substances and optical detectability to enhance safety in the production of food and beverages. Available in one- and two-piece designs from 1/4" to 2" I.D., these high-performance engineering plastic shaft collars incorporate stainless steel fasteners.

Ideally suited for use in conveyors and packaging machinery and equipment in the food and beverage industries, Stafford Food Grade Blue Acetal Shaft Collars are inherently corrosion-resistant, withstand common cleaning agents and sanitizers provide good wear resistance, strength, and durability. Special sizes, materials, and rigid couplings are available.

Stafford Food Grade Blue Acetal Shaft Collars are priced depending upon size and quantity with delivery from stock.
