FOR IMMEDIATE RELEASE

SHAFT COLLARS, COUPLINGS & MOUNTS FEATURE ALL STAINLESS STEEL CONSTRUCTION

A full range of standard and custom stainless steel shaft collars, couplings, and mounts for use in food processing, beverage, bottling, medical, laboratory equipment, and packaging applications have been introduced by Stafford Manufacturing Corp. of Wilmington, MA.

Stafford Shaft Collars, Couplings & Mounting Components are machined from FDA- and USDA-approved 303 and 316 stainless steel and are fully corrosion-resistant. Suitable for use as stops, spacers and mounting devices, they come in 0.25" to 10" standard I.D. sizes and the couplings come in 0.25" to 3" I.D. sizes with standard metric sizes also offered in both.

Ideal for building machinery, conveyors, and packaging equipment requiring frequent wash-down, Stafford Shaft Collars, Couplings & Mounting Components are offered in 1-pc, 2-pc, hinged, set-screw and flanged styles with various bores including round (with or without keyways) hex, square and threaded. Custom modifications such as tapped holes, flats and knurls can be provided.

Stafford Shaft Collars, Couplings & Mounting Components are priced according to style, size, and quantity. This is the firm's 50th Anniversary.
